

**Item # 520**

**Ages: 6 to adult**

**For 1 or more players**

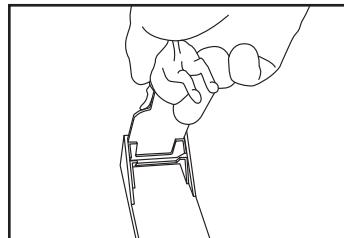

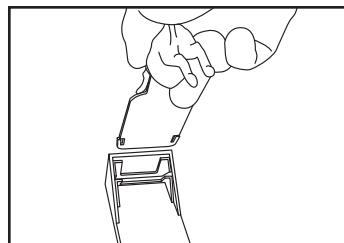

# 8 SECOND Madness

## **Goal:**

To accumulate the most points by launching your bull riders at the scoreboard target.

## **Assembly:**

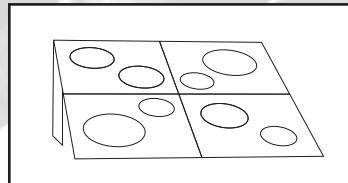

To assemble your PBR Bull Launchers, slide the bull paddle into the base until it clicks as shown.

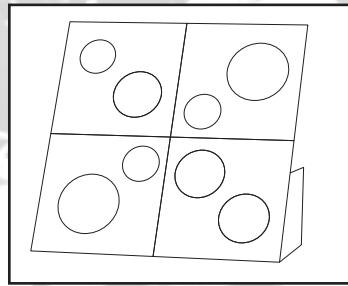

## **Set Up:**

Have each player start out with 1 Bull Launcher and 8 Bull Riders of the same color.

Set up the target board in either the horizontal (beginner) or vertical (advanced) position.  
(As shown)

Beginner

Advanced

## **To Play:**

Place all Bull Launchers a minimum of 18 inches from the base of the board, and FIRE WHEN READY!  
(Set a Rider on the Bull, one at a time. While holding the base with one hand, press down on the Bull's tail,

and release. This bucking action should fling the rider off of the bull. With a little practice, youll hit the target every time!)

Players score points based on where the riders in their color land.

Note: Scores are not added up until all riders have been launched, so you can try to block, or nudge riders in with other riders wherever possible.

Once all riders have been discharged, score points according to the values below:

Score 20 points for each rider that lands in the black targets

Score 15 points for each rider that

lands in the yellow targets

Score 10 points for each rider that lands in the red targets

### **\*Bonus Points**

The first player to successfully buck off all 8 riders in his/her color regardless of where they land earns a bonus of 20 points.

### **Winning the Game:**

Use the score pad provided to add up each players score.

The player with the most points after 3 rounds of 8 Second Madness is the Tournament Champion.
