LET'S PLAY!

Beginning with the player to the dealer's left, and moving clockwise, players take turns placing cards in the discard pile in the order of RED LIGHT, GREEN LIGHT, 1, 2, 3.

You may play as many cards as you can so long as you stay in THAT ORDER. When you CANNOT PLAY A CARD, draw one from the deck and play continues to the next player.

For example, in a 3-player game, with the hands shown...

Player 1

Player 2

Player 3

2

Player 1 starts the game by playing his Red Light Card, then his Green Light, and then stops because he cannot continue the sequence without a "1" card.

Player 2 continues play with her 1, 2, 3 cards, and then starts the sequence over again with her Red Light card before having to stop.

Player 3 can play a Green Light and a 1.

Discard Pile

After each player has had a turn, the players' hands now look like this:

Player 1

Player 2

Player 3

3

Player 1 can play his 2 card (since a "1" was the last card played), then the 3, and his Red Light.

Because the sequence must continue with Green Light, Player 2 CAN NOT play a card and must draw one from the deck. Play then passes to the next player.

(Note: only one card needs to be drawn).

Player 3 can play a Green Light card.

Player 1 would then draw a card as he does not have a "1", and on the game would continue with cards being played in sequence until one player is out of cards and WINS the Game!

Variations of Play: 2 Popular variations of RED LIGHT GREEN LIGHT 1-2-3 are to "Keep fishing" when you have to draw a card, and continue drawing cards until you get a card you can play. And to flip a card over to start the game, and begin the sequence from THAT card.
